Problem statement

AtliQ Grands has been facing a decline in market share and revenue in the luxury and business hotel segment, driven by competitor strategies and ineffective management decisions. To regain its position, the Managing Director introduced a strategic plan to adopt Business and Data Intelligence. However, the lack of an in-house analytics team became a major obstacle in executing this vision. To address the gap, the revenue management team collaborated with a third-party provider. This partnership is now focused on leveraging historical data to generate valuable insights and enable smarter, data-driven decisions for future growth

Insights

Overall Trend

- Revenue: ₹1.71bn, showing a 0.82% decline vs. the previous period.
- Bookings: 134.6K, reflecting a 1.9% decline from May (45.9K) to June (44.0K).

City-Level Insights

- Mumbai: Highest revenue at ₹668M (39% of total) and 43K bookings (32% share).
- Delhi: Lowest revenue at ₹294M (17% of total) and 24K bookings (18% share).

Time-Based Trends

- May → June: Revenue dropped from ₹582M to ₹554M (4.8%) and bookings fell from 45.9K to 44.0K (4.1%).
- Weekends: Generated ₹639M revenue (37%) but lower bookings (50K, 37%).
- Weekdays: Delivered ₹1.07bn revenue (63%) with 84K bookings (63%).

Platform Analysis

- MakeMyTrip: Leading with ₹341M revenue (20% share) and 27K bookings (20% share).
- Outperforms other platforms, showing strong customer loyalty and repeat business.

Recommendations

Delhi Revenue ➡

Delhi gives the lowest revenue. Make focused plans to improve performance here.

Weekends ➡

Weekends bring higher revenue. Launch special offers to boost more bookings.

Offline Market ➡

Online platforms perform well, offline is weaker. Attract customers with discounts and promotions.

Overall Trend ➡

Revenue and bookings are decreasing month by month. Take strong measures to reverse the decline.
