

AtliQ Hospitality Analytics

Channel And Customer Insights

Channel and Customer Insights dashboard analyzes booking platform performance, revenue by customer category, and ADR trends. It highlights top sales channels, guest preferences, and week-over-week shifts, supporting data-driven decisions for customer targeting, pricing, and revenue growth.

Performance Overview

The Performance Overview dashboard tracks key KPIs—Revenue, RevPAR, Occupancy %, ADR, DSRN, and Realization %. It delivers property-level and city comparisons to monitor efficiency, spot underperformance, and guide decisions that boost profitability, room use, and overall business outcomes

Revenue

This page provides revenue insights by month, day type, city, and booking platform. It reveals trends, customer patterns, and channel performance, helping stakeholders refine pricing strategies, identify opportunities, and optimize overall revenue management.

Bookings

The dashboard displays total bookings by cities, months, day types, and platforms. It reveals demand patterns, seasonal trends, and platform performance, enabling better strategies and informed decision-making
